Additional Regulations

1. In the Aspen areas, harvest all Aspen, Balsam Fir, Basswood, Red/Sugar Maples, White Ash and White Birch 1" diameter or larger. Harvest all Ironwood. **Utilization on all species is Whole Tree Only, except balsam fir can be bid WT or to a 4" top.** Do not cut any other species including: yellow birch, cherry, oak, black ash, hemlock, cedar, tamarack, all spruce, all pine and elm. Any den or nest trees will be left alone in both areas. Standing dead trees are not to be cut unless they pose a safety hazard. If utilizing whole tree, every 10th tree top above the standard 4" top diameter must remain in the woods on high-dry ground where the tree was felled.
2. Year-round harvesting is allowed in the main portion of the sale, **but it is recommended that the southern portion of the sale closest to the river should not be harvested during April thru mid-October.** Harvesting may occur in this sale as long as the ground is frozen or dry to prevent rutting. Additional time restrictions may be imposed if excessive rutting occurs in the woods or on the roads or if excessive damage to the residual trees occurs. If, in the opinion of the County, excessive damage to the residual stand cannot be avoided by the Contractor, the Contract may be cancelled.
3. Following completion of the sale, all logging roads will be returned to their original condition or better. Bond money will not be returned until all road work is completed. No skidding or decking on Kelly Fire Lane or within the ditchlines.
4. No equipment is allowed in the swamps, ephemeral ponds or wet areas adjacent to or within the sale. Any trees felled into the swampy wetlands must be pulled back onto high ground before limbing. All slash must be removed from these wet areas.
5. All new roads, trails and landings must have approval of the County prior to construction. BMP's will be enforced on all aspects of the sale.
6. All slash must be pulled 25' from Kelly Fire Lane and lopped and scattered not to lie no more than 2' high.
7. All items of the Oneida County Timber Sale Contract apply.
